

Every operator of a motor vehicle involved in an accident resulting in either injury, death or damages over \$1,000.00 to the property of any one person (including the operator) must complete and return this confidential report within 10 days following the accident.

If the driver is physically unable to fill out the report, the owner of the motor vehicle is required to do so. If you have difficulty filling out the report, consult your insurance agent or nearest police authority. Failure to report an accident as required is a misdemeanor, punishable by a fine of \$50.00.

**Report Form Instructions** (print in ink or type)

**Accident location:**

After entering the date, county and city information, describe where the accident occurred. If the crash happened on a numbered rural highway, give the direction and number of feet from the nearest milepost. If your accident occurred on an urban highway, skip the "distance from milepost" section.

If the accident occurred at an intersection, enter the name of the intersecting roadway. For those accidents not located at an intersection, enter the approximate distance in feet from the nearest landmark (intersection, city limit, bridge name, etc.).

**Vehicle and driver involvement:**

Answer the questions asked about your vehicle and any other vehicle involved in the accident to the best of your ability. If more than two vehicles were involved, complete an additional form(s). Refer to your vehicle as vehicle number 1 throughout the report. Information on bicycles may be entered in the "other vehicle" section.

Be careful when listing the estimated damage to your vehicle. Use a garage estimate whenever possible.

**Airbag deployment coding:**

For every occupant in your vehicle, including yourself, enter the correct airbag deployed code according to each person's seating position. For help in marking the car graph see the following example.

Example: There are a total of three occupants in the vehicle, with the driver and one occupant in front, and the third person in the back seat behind the driver. Both the driver and the front passenger seats are equipped with front air bags. The driver's air bag does not deploy during the crash, the front seat passenger's air bag does deploy. The passenger in the backseat does not have an airbag available. The car graph would be marked as shown.

**Restraint use coding:**

For every occupant in your vehicle, including yourself, enter the correct restraint code according to each person's seating position. For help in marking the car graph, see the following example.

Example: If there were three occupants in the vehicle, with the driver and one occupant in front, both using lap and shoulder belts, and the third occupant in the back seat behind the driver not using any restraint, the car graph would be marked as shown.

**How to enter information about injured persons:**

Carefully complete this section for each person injured in your vehicle and any pedestrians or bicyclists injured in the accident. After providing the name, address, date of birth, and sex of each injured person, answer questions 1-5 by writing your response in the appropriate box. If you need to provide injury information for more than four persons, complete another report form.

Example: Assume the car you were driving collided with a bicycle. The bicycle operator was seriously injured and rushed to the hospital. Although you bruised your shoulder and one of your passengers complained of neck pain, no one riding in your vehicle received immediate medical treatment.

NAME	ADDRESS	DATE OF BIRTH (MM / DD / YYYY)	1	2	3	4	5	SEX M F
			Seat Position	Eject	Body Region	Injury Sev.	Trans.	
John Doe	12354 Elm Avenue Blair, NE 68008	10 / 05 / 1952	1 9		0 5	2	2	M

## How to Complete the Back Side of the Accident Report

Answer all of the questions asked about the crash by checking the proper box.

Draw a diagram to show what happened. Provide an explanation of the events which occurred. Instructions on what to show on the diagram are provided below.

If property was damaged, briefly describe it. Enter the owner's name and address and estimate the cost of the damage.

Check whether or not an investigator was contacted. If so, give the officer's name or badge number and the name of their agency.

Do not forget to sign the accident report before mailing it to:

Highway Safety - Accident Records Bureau  
Nebraska Department of Roads  
P.O. Box 94669  
Lincoln, NE 68509-4669

### What to show on the diagram

1. In the upper left corner, draw an arrow to indicate north.
2. Name all streets and roads.
3. Number each vehicle and use a solid arrow to show the paths the vehicles or pedestrians were traveling before the collision.
4. Draw the vehicle positions at the point of collision.
5. Use a dotted arrow to indicate the post-crash paths of the vehicles, and draw the vehicles where they came to rest.
6. Identify any objects involved (bridges, buildings, guardrail, animals, etc.) If the object was off the the roadway, note the distance from the edge of the road.
7. Give distances to landmarks (intersections, mileposts, bridges, railroad crossings, etc.).

### Example Diagram: Typical Rural Accident

The right front wheel of No. 1 slipped off the edge of the pavement. While trying to get back on the pavement, the driver turned too sharply and allowed his car to cross the center line where it struck the left rear side of No. 2. Both vehicles left the roadway after the collision and No. 1 then struck a telephone pole.

### Example Diagram: Intersection-related Accident

No. 2, going north on Adams Street, failed to stop before entering the intersection with Main Street. No.1 was going east on Main Street. No. 2 struck the right side of No. 1 and No. 2 then went over the curb after striking a pedestrian, who was trying to cross Main Street.
